

**CLIENT:** MISSION VIEJO MALL    **LOCATION:** MISSION VIEJO, CALIFORNIA

With over 150 stores, this Simon Properties indoor mall is conveniently located in Mission Viejo. It has a reputation as a premier shopping destination in a densely-populated area of Southern California.

### THE CHALLENGE

To retrofit 1100 existing Ceramic Metal Halide down lights that are inefficient, expensive to replace and have a short lamp life. With the lamps failing regularly, the mall was too dark. Lighting is key for strong retail sales and creating a luxury atmosphere.

### THE SOLUTION

Installing LED lights connected to a SMART hub results in a **70% reduction in energy costs** and a **250% increase in light levels**. With 5 year warranties, the LED lights won't need replacing. Things are looking brighter and the client is saving money!

### BY THE NUMBERS

3 WAYS LED LIGHTING CAN SAVE YOU MONEY

REPLACE BULBS  
2 TO 3X  
LESS OFTEN

**REDUCED**  
MAINTENANCE  
ON FIXTURES

SAVE UP TO **80%** ON ENERGY COSTS

We can help you calculate the savings for your business.
